

## Donors Update—May 2019

### Exciting things are happening and we are on course to break ground!

**We exceeded the City's fundraising goal, raising \$1.8M.** The Museum has full City support, we won our incentive \$667k, and saved the project.

**We are within \$1 million** of having our total \$9.2M in hand to start 6-12 months of construction.

**We've pulled our building permit!**  
Construction must start in August.

The clock is ticking... the City is updating our lease agreement – eta June 1.

**Our goal is to raise that last million for construction by June 1, sign the new lease with the City and BREAK GROUND on the City's newest cultural treasure.**

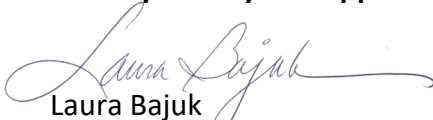

**Can you help us meet that goal?**

- Make another gift?
- Host a house party with your friends?
- Introduce us to potential donors?

AND, it's time to flesh out our exhibits so they can be ready when we open. We're actively collecting stories so that we can create a true community museum.

*Do we have your story?*

**Thank you for your support!**
